## EDUCATION

### **CareerFoundry, Online** — *Certificate in Full-Stack Web Development*

NOV. 2023 - FEB. 2025

- Project-based training program focused on JavaScript, HTML, CSS, and prominent libraries, frameworks, and tools
- 500+ hours of hands-on training with guidance from 2 industry experts

## PROJECTS

### **Django Recipe App** — *CareerFoundry project, Nov. 2024 - In Progress*

- Developed a web application with multiple users and an admin panel, using Python-based Django framework that aims to allow users to create and modify recipes containing ingredients and a cooking time, search for recipes by ingredient, and a difficulty parameter automatically calculated by the application
- Tools Used: HTML, CSS, Python 3.6+, Django (version 3), PostgreSQL

### **myFlix Angular App** — *CareerFoundry project, Nov. 2024 - In Progress*

- Developed myFlix Angular, a single-page responsive Angular application for movie enthusiasts to access and save information about different movies that supports an existing server-side REST API and database
- Tools Used: Angular (version 9 or later), Node.js, npm package, Angular Material

### **Meet App** — *CareerFoundry project, Aug. 2024 - In Progress*

- Developed a serverless, progressive web application with React, created with a test-driven development technique using a Google Calendar API to fetch upcoming events
- Tools Used: AWS Lambda, OAuth, Kanban board, Jest, Cucumber, Puppeteer, React, Google Calendar API
